Body text: 16pt, charSpacing: -0.6

Footer / source: 10pt

Line spacing: 110%

03

Slide Layouts

Consistent patterns for every slide type

Nine Slide Types

Title / Cover

Forest Green + Y-motif background

Agenda

Numbered staircase layout

Section Divider

Large number + title

Title + Body

Standard content layout

Two-Column

Side-by-side content

Content + Image

Text and visual split

Statement

Large centered quote text

Chart

Data visualization with brand colors

Thank You

Pink closing slide

Minimalist and
clean.
Lots of whitespace.
Completely flat
design.

04

Agent Capabilities

What AI agents can now create

AI-Powered Presentation Creation

Brand-compliant design

Agents follow strict brand guidelines — colors, fonts, and layouts are applied consistently across every slide, eliminating manual design work.

Programmatic generation

Using PptxGenJS, agents generate native .pptx files with full support for shapes, charts, images, and rich text formatting.

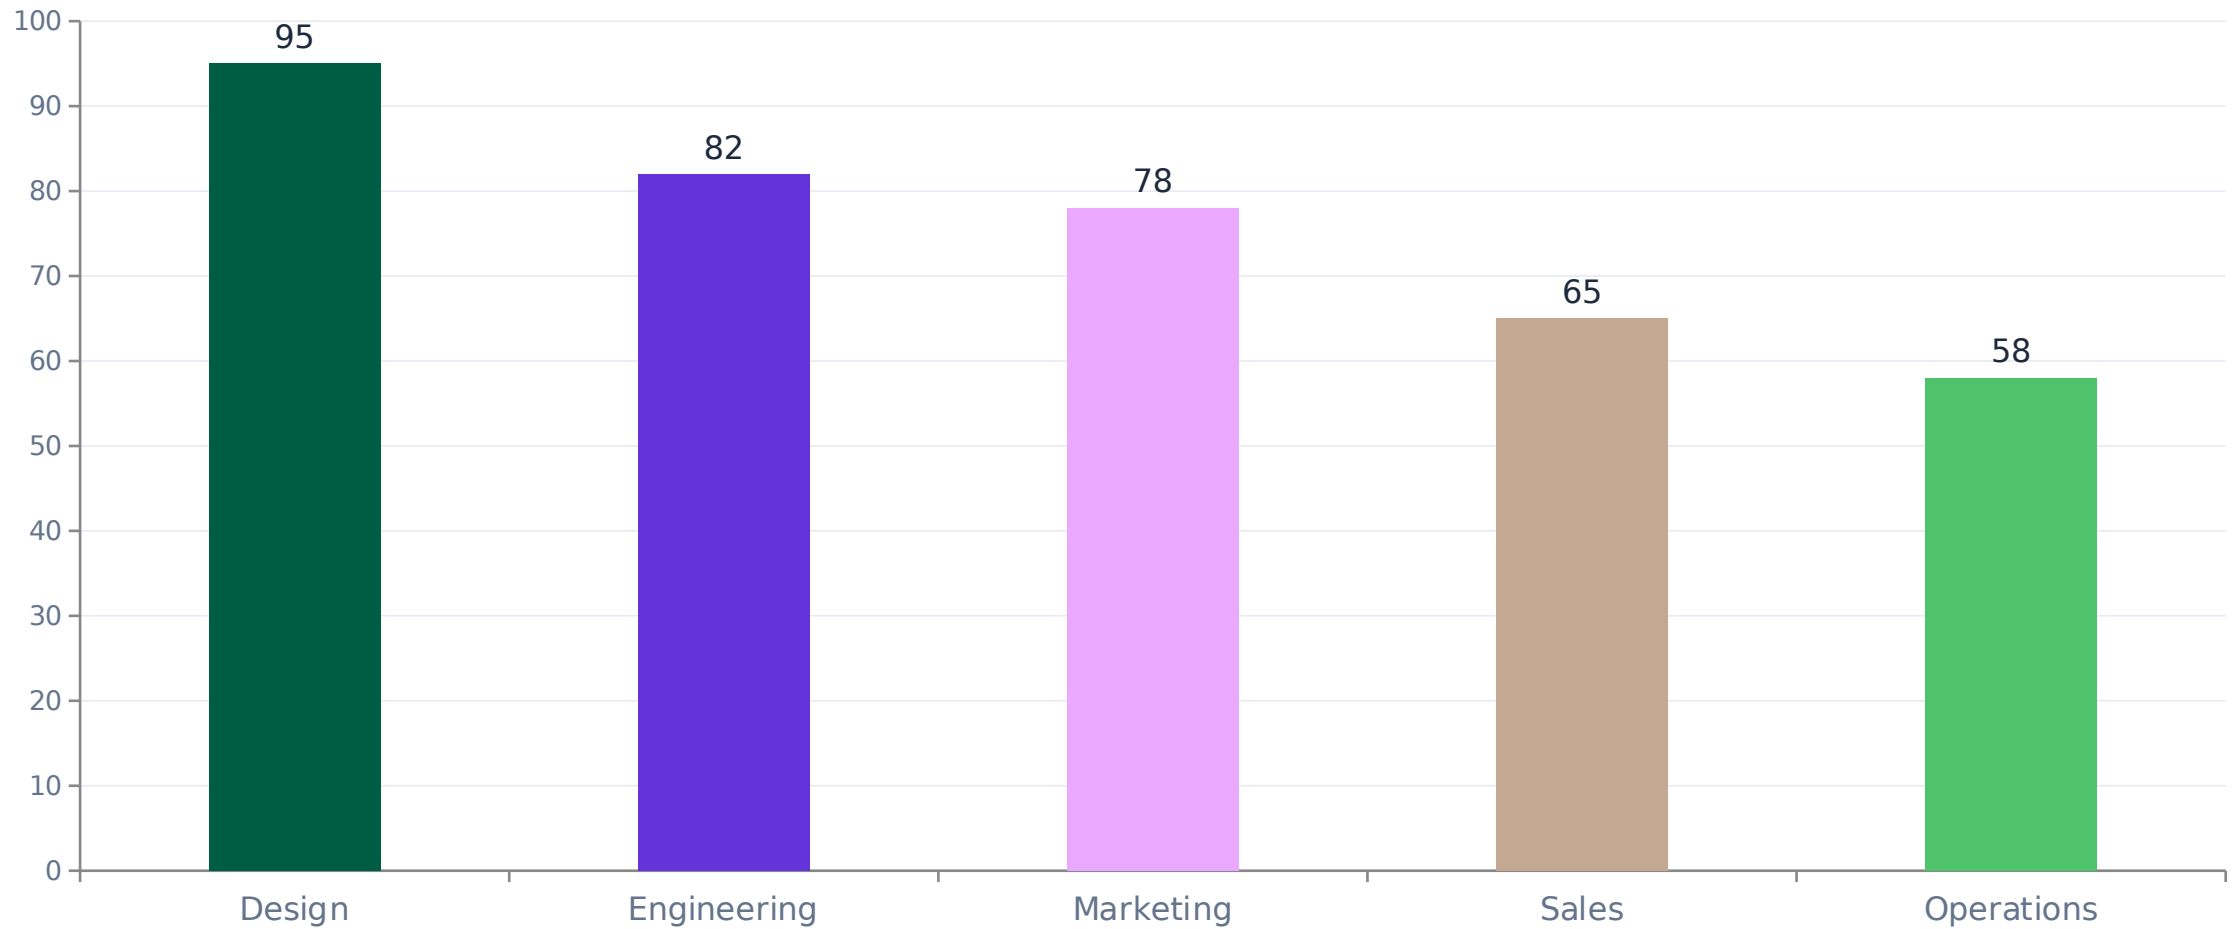

Quality assurance built in

Every presentation goes through content extraction and visual rendering checks before delivery.

Customizable and extensible

The skill system allows agents to learn new brand guidelines, templates, and design systems for any organization.

Brand Adoption Across Teams

The future is yuman.

THANK YOU
